

## Clark Forklift Part

Clark Forklift Part - Performing worldwide, there are currently 350,000 Clark forklifts and lift trucks in operation, with upwards of 250,000 of those in use in North America. Clark has five main lines of forklifts across the world, making it one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, covers more than 120,000 particular items fabricated for 20 unique brands of lift trucks and automated equipment. Your regional Clark Dealer is your complete source for availability of all your components needs provided by Clark Totalift.

Clark features a phenomenal Parts Supply team. The components warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their buyers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Driven to supply the highest level of value and service to our customers, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Clark Totalift has a very impressive international support network. With over 550 locations worldwide, seller representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling market.

By revolutionizing the operator restraint system protection feature, Clark proudly remains a leader of innovation in the industrial equipment and automated forklift industry. This exceptional commitment to safety is now a standard feature on every forklift.

Clark has a uncompromising goal to possess the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its manufacturing facilities. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any environmental limitations, thus placing them in a prevailing industry position.

Clark has chosen the extremely economical and advantageous structure of "Lean Production" for its assembly facilities and application of resources. This system was developed to acknowledge the most efficient method of manufacturing facility stewardship and ensuring maximum efficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers join together to develop the effectiveness and excellence of their merchandise while minimizing expenses. The new value engineering agenda combines progressive product development and offers superior consumer support and service within the industry.
