

## Barrel Clamp

Barrel Clamps - Referred to as "Barrel Clamp", this particular hydraulic attachment is used on forklifts so as to squeeze objects that you wish to transport with the lift truck. Typically, they're utilized so as to barrels, handle kegs, and paper rolls, together with several barrel clamp designs having the ability to revolve the load. Like for instance, the revolving function enables a lift truck operator to be able to put in a vertically stored paper into the horizontal intake of a printing press.
